

# Anthesis

## We're Hiring: Infor PLM Consultant

Location: UK/Europe (Remote with 25% travel)

Reports to: Solution Architect – PLM

Type: Full-time

### About Anthesis

Anthesis is a dynamic consultancy helping clients in the food and beverage industry transform their product lifecycle management (PLM) processes. We're passionate about delivering impactful solutions using Infor's PLM for Process (Optiva) software. Join us and be part of a collaborative, forward-thinking team driving innovation in product development.

### The Role

As an Infor PLM Consultant, you'll play a key role in implementing cloud-based PLM solutions for our clients. You'll lead core phases of project execution—from discovery and design to configuration, testing, training, and adoption. This is a client-facing role where you'll work closely with project teams to deliver tailored solutions that meet business needs.

### Key Responsibilities

- Deliver consulting services for Infor PLM for Process (Optiva) implementations
- Lead project phases: discovery, requirements gathering, solution design, configuration, testing, documentation, and training
- Advise clients on software capabilities and configuration options
- Support data preparation and deployment activities
- Collaborate with cross-functional teams and provide post-deployment support
- Stay up to date with product enhancements and attend training sessions

### Requirements

#### Education & Experience:

- Degree-level education
- 2+ years in consulting or project delivery (PLM preferred)
- Experience with PLM for Process or similar platforms
- Familiarity with integration across ERP, MDM, MES, QM, GDSN
- Background in product development (NPI/NPD) in food & beverage or CPG

- Knowledge of formulation, packaging, labeling, and compliance management

#### **Skills & Attributes:**

- Proficiency in Office 365, basic SQL and .NET
- Strong communication and stakeholder engagement skills
- Ability to work independently and in remote teams
- Self-motivated, proactive, and diplomatic
- Comfortable discussing technical topics with non-technical stakeholders
- Willingness to travel and work flexible hours when needed

#### **Why Join Us?**

- Work remotely with flexible travel
- Be part of a supportive, expert team
- Make a real impact in the food and beverage industry
- Opportunities for growth and continuous learning

Ready to roll up your sleeves and make a difference?

Apply now and help us shape the future of PLM in the food and beverage sector.
